**Cancel:** Mandla: February 14, 1901  
**Subject:** missionary's description of a village's health conditions includes the prevalence of malaria  
**Notes:** from a 4-page letter  
**Price:** D

~~Refuse to pay. C. R. S.~~  
 also the name. The district has a very bad malaria. Best method for people who live in it might be avoided if you ever.  
 Address - Mandla, C.B.  
 Mandla, C.B. Feb. 12, 1901.  
 Please write again. I shall be only too glad to keep up a correspondence with you, especially if you are thinking of taking our mission work field on the medical. Except our annual letters there is no paper that especially tells of

My dear Gordon,  
 your letter written just before I was, and I was delighted to get. Please write again. I shall be only too glad to keep up a correspondence with you, especially if you are thinking of taking our mission work field on the medical. Except our annual letters there is no paper that especially tells of
