ENCLOSURE ON THE DESIGN OF ETHIOPIA MALARIA STAMP ISSUE OF APRIL 7, 1962

The official Ministry of P., T. & T. brochure omits mention of designers of the stamp and cachet. They were largely the work of members of the Ethio-American malaria team and the story is:

In January 1962 H.E., The Minister of Posts, etc. asked Ato Seifu Zelleke, Director General of the Ethiopian Malaria Eradication Service for assistance with the issue. Seifu called on Joe (Gesualdo A.) Verrone, who didn't favor the WHO design proposed for all countries. Joe made up his own design after consulting other malaria advisors. His India ink de-

sign was accepted with only the addition of H.I.M.'s likeness and the WHO malaria motive in the upper corners.

Mr. Wm. A. McDonald and Ato Sebsibe Abebe designed the cachet, which was not revised by the Ministry of Posts, etc.

I have requested the three designers and the Director General to autograph this note for whatever interest their signatures might add to your collection.

Dear Dutch:

I love you more than any ^{thing} in the world, you are the sweetest girl a fellow ever had, please don't change a bit while I am a way, I love you just as you are. You are and always will be tops to me.

Believe it or not we had a inspection and passed, very good for Co.F. don't you think. We are getting things a little easier now and the days are longer, seems good to have some time for ourselves, we are starting to play ball in the evening and take rides on sundays or rather sunday afternoon, our day off still do ten hours a day tho.

How is the war going? Haven't had much news, you no doubt have lots more than me do even tho we are in it. Have you heard from Oscar? - Haven't heard from the folks yet and your letter jump all over - the few that come thru had two to-day - March - 24+25. Glad to hear you are keeping in good shape and have such good "looker afterers" taking care of you for me. We started a malaria treatments the first of the week, they last till November - some job "hub" could be we will be home by then - we love you - I think it's all over - I like to see it.

We started a malaria treatments the first of the week, they last till November -

P.S. - late more Sept 2.

 Subject: writing to his wife from his recent transfer to Italy, a soldier use of insect spray, and added clothing to protect from mosquitoes, as well as atabrine to protect from malaria
 Notes: unit was at Capua, Italy, at the time

she got the twenty swigget. See, that was a long job to accomplish. It's pretty hard to do things our wants from over here. The baby sure looked snug and pretty in your gift.

The place I'm over here. The fellows have to use leggie, helmets and apply insectide to protect them from mosquitoes and malaria. It is well under control. We also take atabrine at supper time. They sure did a swell job in abolishing typhus here. The people are getting to appreciate cleanliness a little more.

We got a homemade table in our tent and the fellows are playing pinocle tonight. They just came back from the baseball game. The team here plays regular now.

Rotation for a twenty one day furlough at home is still 1/5 of 1%. Figure it out.

Bronnie sent pictures of the gang down "East" on a fishing trip. They were having fun.

Well dear this is to keep you posted and to help keep you happy.

all my love
Johnny.
